

Juan Paredes

Full-Stack Web and Mobile Developer

San Cristóbal, Venezuela | +58 424-7836896 | jdpparedes@gmail.com | LinkedIn | GitHub | Portfolio

Computer Engineering student (UNET, Class of 2027 — 1st Place on the Honor Roll, 8.34/9 GPA) with hands-on **full-stack** experience (Python, React, Django, Node.js) and a foundation in Machine Learning. Analytical mind passionate about solving real-world problems through technology.

EDUCATION

Bachelor's Degree in Computer Engineering

Sept 2022 – 2027

Universidad Nacional Experimental del Táchira (UNET) [🔗](#)

- GPA: 8.34
- 1st Place on the Honor Roll: Professional Cycle (Terms 2024-3, 2025-1) and Basic Cycle (Terms 2024-1, 2nd: 2022-3)

C1 - Full Professional Proficiency, Formación Permanente UNET

2024

SKILLS

Frontend & Mobile: JavaScript / TypeScript, React, Next.js, Tailwind CSS, HTML5/CSS3, Kotlin, Android Studio.

Backend: Python (Django), MySQL, Java, PostgreSQL, Node.js (Express), MongoDB, Firebase.

Tools & DevOps: Docker, Git/GitHub Actions, API RESTful, Notion, Figma, Articulate Storyline 360.

IA & Machine Learning: Python (TensorFlow, PyTorch, Scikit-Learn), AutoML, MATLAB

Languages: Spanish (Native), English (C1-Fluent), French (Basic).

EXPERIENCE

Freelance Developer / Independent Consultant

2024 – Present

- Developed full-stack web applications with efficient interfaces (React, Next.js) and optimized UI/UX.
- Designed RESTful APIs and scalable databases (Node.js, PostgreSQL, MongoDB), ensuring security and data integrity.
- Managed the product lifecycle and automated deployment workflows (Git, Docker, GitHub Actions).

E-Learning Developer (Contract), BeeLearnStudio

02/2026 – 04/2026

- Developed and laid out 6 interactive learning modules for 2 projects using Articulate Storyline 360.
- Created dynamic user experiences, integrating professional multimedia for educational environments.

Technical Educator, UNET - Formación Permanente

2024 – Presente

Programming Instructor: Designed and executed the "**Game-Oriented Programming**" course for young talents.

Mathematics I Teaching Assistant: Mentored engineering students in logical problem-solving and foundational math.

FEATURED PROJECTS

EVEM & DIM 2026 Academic Portal | Full-Stack Web Development [🔗](#)

- Developed the official web portal and a comprehensive registration system for a national academic event (UNET/ULA).
- Managed the successful registration of over 100 users through the implementation of relational databases.
- Technologies:** PHP, MySQL, Vanilla JavaScript, HTML/CSS, jsPDF, RESTful APIs.

DJANGO-UNETX | Full-Stack Development [🔗](#)

- Built an HTMX-powered university Twitter clone, reducing latency and enabling fluid, reload-free updates.
- Structured a scalable Django backend capable of securely supporting concurrent interactions.
- Technologies:** Django, Python, HTML, CSS, JavaScript.

MIUNET | Mobile Application [🔗](#)

- Developed a native app in Kotlin for academic management, centralizing information in an intuitive interface.
- Integrated real-time synchronization with Firebase, guaranteeing data availability on unstable connections.
- Technologies:** Kotlin, Firebase, Android Studio.

CERTIFICATIONS & PARTICIPATION

Recognition: Web Design for the "UNO CAMBIA EL MUNDO" campaign, Rotary Club San Cristóbal (2025).

Speaker & Participant: Software Development Hackathon, Hello World Cup UNET (2025).

Recognition: Scientific Project, UNET Science Festival and Fundacite (2025).
